Constitution

Preamble

The Windsor Camera Club, formed in 1952, was created to promote the advancement of photography as an art. The purpose of the club is to bring together persons of like mind who are dedicated to the advancement of their skills by association with other members, through the study of the work of others and through spirited and friendly competition. The club exists to offer opportunities for all to share knowledge within the club and in the community, through exhibitions and programs that excite interest in the knowledge and practice of all branches of photography.

Article 1 - Name

The name of the organization is The Windsor Camera Club.

Article 2 - Membership

Membership in the club is open to any person, subject to requirements of the bylaws.

Article 3 - Officers and Directors

The executive officers of the club are to include:

1. President
2. Past President
3. First Vice-President
4. Second Vice-President
5. Secretary
6. Treasurer
7. Statistician

The Executive Committee will consist of the officers and directors.

A quorum of the Executive Committee shall consist of five officers and directors, but no fewer than three officers.

Article 4 - Elections

The officers are to be elected by the membership at a time specified in the bylaws except for the Past President who serves until his successor qualifies.

No person may serve a consecutive term in any office. However, there are no term limitations for the offices of Secretary, Treasurer and Statistician in order to maintain greater continuity in the club's record keeping. This provision is not intended to preclude the membership from making nominations for the three offices when elections are held.

Terms of office for the President, First Vice-President and Second Vice-President will be two years.

All directors shall be appointed by the Executive Committee. All committee chairs are automatically directors. All directors may vote.

Article 5 - Vacancies

In the event of resignation, neglect of duty, incapacity, death or absence from three consecutive meetings, the Executive Committee may replace that person. The President will recommend a replacement for the approval of the Executive Committee. Should the office of President be vacated for any of the reasons stated, the Past President will recommend a replacement for the approval of the Executive Committee.

An absence may be approved by a majority vote of the Executive Committee.

Article 6 - Membership Meetings

Regular meetings of the club will be held as provided in the Bylaws.

A quorum for a membership meeting voting on a business matter will consist of one third of the members in good standing, and no fewer than two officers and one director.

Special meetings may be proposed by the President for approval by the Executive Committee.

Article 7 - Committees

Standing and special committees are to be created by the President and the Executive Committee.

All committees are required to report to the Executive Committee.

Article 8 - Constitutional Amendments

Requirements for the presentation and adoption of amendments to the Constitution are the following:

1. Notice of motion to amend the Constitution, including the text of the amendment, is to be given at a regular meeting of the club membership.
2. The proposed amendment is to be brought before the membership for discussion at the next regular club meeting.
3. A vote is to be taken on the motion at the third regular club meeting following the introduction of the motion. A quorum for the vote shall consist of one third of the members in good standing including a quorum of the Executive Committee.
4. To be adopted, the amendment must be passed by at least two thirds of those present at this meeting.

Article 9 - Bylaws

Bylaws are to be provided by the Executive Committee.

The underlying principle for the passage of all bylaws is that all members will be treated equally, without prejudice to any.

Article 10 - Rules of Competition

Rules of competition are to be provided by the Executive Committee.

Article 11 - Signing Officers

Two signatures are required for the execution of any contract or agreement, and any bank transaction. Officers with the authority to sign contracts, agreements or bank transactions include the President, Treasurer, First Vice-President and the Past President.

Any expenditure of \$750 or more requires the approval of the membership, by majority vote of a quorum in a regular club meeting.

By-Laws

Membership

1. Any person who has paid current dues is an active member of the club.
2. Any member who is in arrears for two months (four meetings) or more will be suspended from membership.
3. A member may be expelled from the club for cause. A motion to expel setting forth reasons must be submitted, in writing, to the Executive Committee. The accused person will be given the opportunity to respond to any accusations. An expulsion requires the approval of a majority of the Executive Committee. The person expelled has 30 days in which to appeal the decision to a regular membership meeting. The decision of the membership to sustain or reject an expulsion decision requires a two thirds vote of those present, provided there is at least a quorum attending.
4. No member of the club is permitted to put forth a motion, second a motion or vote on a motion when it is a conflict of interest involving that member.
5. Members who reside more than 100 km from Windsor, and will not be able to attend the two regularly scheduled meetings of the WCC, but wish to enter images for competition via the internet, will be offered a special associate membership rate of \$25 per year.

Competition Standards and Rules

General Rules

All members and their entries must meet club standards and rules to be eligible for competition. Any entry that does not meet standards and rules will be rejected. All images must be photographed by the competing member. Any photo that a member was hired or employed to produce is ineligible for competition.

Media

There are two media with which members may compete:

1. **Prints** include colour and monochrome. Prints must be mounted on a mount board no larger than 16" by 20". Prints must be made from images originally captured with a camera. Only prints mounted on a 16"x 20" board will be eligible for submitting to GDCCC for competitions. Each print must have a completed sticker in the upper left corner on the back of the print identifying the maker, title, category and definition. Stickers are available from the Treasurer for purchase.
2. **Digital** image files (**JPGs**) that are intended for projection include colour and monochrome. These can include images captured with a digital camera, or produced by scanning film images made with a camera. The entry must have a maximum resolution of 1080 pixels on the longest edge. Submitting an image sized to less than 1080 pixels will cause the image to be displayed on the screen smaller than all other properly sized images. The image must be saved using the **sRGB** colour space.

Definitions:

Examples of acceptable modifications include: Cropping and horizontal flipping (equivalent to reversing a slide), straightening, keystone, noise removal, dodging and burning, exposure adjustment, color balance, color correction, white balance, saturation, and sharpening, "HDR" (High Dynamic Range). Human elements, if present, should be unobtrusive and enhance the nature story. Those depicting cultivated plants, domestic animals or pets, still-life studies, mounted specimens, museum pieces or groupings, or similar subjects are NOT eligible. The presence of scientific bands on wild animals is acceptable. Zoo shots and Game Farm shots are eligible provided the artificial habitat is not apparent in the image. Photographs of artificially produced hybrid plants or animals, mounted specimens, or obviously set arrangements, are ineligible, as are some forms of manipulation manual or digital (see below) that alters the truth of the photographic statement.
 - The photographer may perform enhancements and modifications that improve the presentation of the image that could have been done at the time the image was taken but that does not change the truth of the original nature story.
 - Cropping and horizontal flipping (equivalent to reversing a slide), straightening, keystone, noise removal, dodging and burning, exposure adjustment, color balance, color correction, white balance, saturation, sharpening, and “HDR” (High Dynamic Range), are examples of acceptable modifications.
 - Adding elements to your images, combining separate images or rearranging and/or cloning elements in your image, removing major elements from your image other than by cropping, are not acceptable and will lead to disqualification of your image.

Altered Reality:

(Anything Goes). Any color/nature digital image that contains "Any Subject", that is not eligible in another category. This includes images where all or part of the image is manipulated, created, edited, fixed, duplicated, or imported from another image (see below). **All the components of the image must be original work created by the maker. The photographer must have performed all manipulation.** The image should appear to be a manipulated image to a casual viewer.

- Cropping and horizontal flipping (equivalent to reversing a slide), straightening, keystone, noise removal, dodging and burning, exposure adjustment, color removal, adding one color, white balance, saturation, and sharpening, “HDR” (High Dynamic Range), are examples of acceptable modifications. Images are not limited to only these modifications.

Digital Entries

Digital entries are required to use the color space, image size, and image identification and file naming format shown in the following steps to be entered in competition: **These same instructions apply to digital image files submitted for print entries.**

Converting an Image to sRGB Color Profile

If you are using Photoshop from the menu bar select “**Edit**” then “**Color Settings**” to bring up the box shown below.

You will need to select “**sRGB IEC61966-2.1**” in the RGB box as shown below.

Finally click OK and your image will be converted to the required color space profile used for projecting of all images entered into competition.

If you are using Photoshop Elements from the menu bar select “**Image**” then “**Convert Color Profile**” then you will need to select “**Apply sRGB Profile**”.

Note: Once you have converted the color profile to “**sRGB**” your image may appear to changed in color compared to your original image, Adobe RGB (1998) used by most cameras has a larger range of colors but most if not all projectors can only project the smaller “**sRGB**” range of colors.

Editing, Cropping and Color Adjustments

It is recommended that you edit, crop and make any color adjustments to your images after converting to the “sRGB” color profile required for all entries submitted into **WCC Digital Projection Division (DPD)** competition so you will know exactly what your image will look like when it is projected. (See note above)

Note: It is important that if you are going to crop your image that you do so before you resize your image in step 4 below. If you crop your image after step 4 below you may end up with a much smaller image than you expect and may need to resize your image again.

Resizing

Using Photoshop select from the menu bar “**Image**” then “**Image Size**”, if using Photoshop Elements select “**Image**” then “**Resize**” then “**Image Size**” to bring up the box shown below.

First make sure there are check marks in the “**Scale Styles**”, “**Constrain Proportions**” and “**Resample Image**” check boxes as shown below.

Next change the “**Resolution**” value to “**100 pixels/inch**” as shown below.

Next change the dimension in the box which has the largest value for the “**Width**” or “**Height**” to **1080 pixels** or less as shown below.

Finally click **OK** and your image will be resized to the required maximum pixel size allow for competition.

Note: The actual “Resolution” value doesn’t have any effect for projection of an image, but changing this value will assist in maintaining consistency when we need to add text or titles to the images to produce slide shows, catalogues or website pages of winning entries.

For a horizontal image, make the width 1080 pixels.

For a vertical image, make the height 1080 pixels.

Always make the longer dimension 1080 pixels.
